Cohen's Lottery & Exchange Office.

HOC SIGNO FORTUNA

BALTIMORE, THURSDAY, Dec. 21, 1820.

Grand Distribution!

On Monday after next, New Year's Day, a more interesting Lottery Drawing will take place than has ever yet occurred in the United States. On that day the whole of the Prizes in the Fourth Class of the Washington Monument Lottery will be distributed. Every Prize floating—none stationary—the principal Capitals are 40,000 dollars, 10,000 dollars, 5,000—3,000, &c. &c. The Managers' Official List of the Drawing will be published in this Gazette, and will be forwarded, gratis, to all persons, adventurers at this Office, who may signify their wishes to be furnished with it.

Adventurers in the late Cathedral Lottery, are desired to recollect that agreeably to the scheme, the prizes only were drawn, therefore all such numbers as have not appeared in the official lists, are consequently Blanks, having remained in the wheel till after the prizes were distributed, which occupied the nine drawings.—Those who have drawn twenty-five dollar prizes, are informed that the consolidation drawing will take place on the 24th of next month.

New-Year's Day Presents,

In Cash, to the amount of One Hundred Thousand Dollars, will be distributed from the wheels of the WASHINGTON MONUMENT LOTTERY, the whole of which is to be drawn on that day. The Scheme is published on our third page, and uniting patriotism with dispatch, calls for that encouragement which its object deserves. A few Tickets still may be had at the rate of 24 dollars, at this office. To secure chances therefore, our distant friends should lose no time in forwarding their Orders, while Tickets are yet to be had at COHEN'S OFFICE, where in the two last Classes were sold, a Capital of 40,000 dollars—1 Capital of 30,000 dollars—two Capitals of 20,000 dollars each—one of 10,000 dollars, besides a large number of minor importance.

No. 10,311.

It will be recollected that this lucky ticket, which was divided at COHEN'S OFFICE into one half and two quarters, drew the Capital prize of 40,000 dollars in the Cathedral Lottery on the 29th ult.—It will also be recollected that the 40,000 dollar prize in the 2d Monument Lottery was sold in shares at the same Office, where also was obtained the 30,000 dollar prize, and that in the 3d Monument Scheme, the highest capitals, 2 of \$20,000 and one of \$10,000 were the results of investments at the same fortunate establishment. May we not, therefore anticipate the pleasure of presenting some of our patrons with our full portion of the splendid capitals to be drawn in the 4th class on NEW YEAR'S DAY.

Latest from Europe.

The October Packet Ship James Monroe, Capt. Rogers, arrived at N. w-York on the 13th instant, from Liverpool, London papers to the evening of the 2d ult. and Lloyd's Lists to the 31st October have been received, with corresponding advices from Liverpool.

CASE OF THE QUEEN

On the 25th October Mr Denman summed up the evidence in behalf of the Queen; he was fol-

lowed on the 26th by Dr. Lushington, in a speech which occupied the whole day, and closed the defence.—On the 27th the Attorney General commenced his reply, which he did not finish till the afternoon of the 28th; when he was followed by the Solicitor General, who occupied the time till two o'clock on the 30th, and closed the case. The Queen's Counsel then desired permission to bring forward some new evidence respecting the Baron Ompteda, which was refused by a majority of 129; and the House of Lords immediately adjourned to Thursday the 2d of November.

They met again on the 2d, when the second reading of the bill took place, and the debate on its passage was opened by the Lord Chancellor in a long speech, in which he expresses his conviction of the Queen's guilt. The house then adjourned—and in this situation the last accounts leave the case.

The Queen had been confined by illness, and was visited by the Prince Leopold.

Commodore Isaac Chauncey has been appointed by the President of the United States, to be one of the Commissioners of the Navy Board, and has accepted the appointment.—The Board now consists of Commodores John Rodgers, David Porter, and Isaac Chauncey.

Notwithstanding the silence of the Madrid Papers, it appears certain that the Florida Treaty, made, it will be remembered, by Mr Onis, and to which, last year King Ferdinand withheld his sanction, has now been ratified. By this Treaty the United States obtain legal possession of the whole of East and West Florida; but we are unable to state how the questions relating to the validity of the Duke de Alagon's grants of land, and the Louisiana boundaries, have been disposed of, or whether any additional articles have been affixed to the original Treaty.

Morn. Chronicle

The following extract of a letter from a highly respectable source has been received in this city. Accounts from Havanah also confirm its contents.—

South Pat

Liverpool, Oct 26.

"My object in writing, is to say, that I yesterday received a letter from Samuel Williams, Esq. of London, in which he uses these words:—'My correspondent in Madrid confirms the report of the Ratification of the Treaty and Cession of the Floridas, to the United States. There can be no doubt of the fact.'"

Steam-Boat Accident.—We regret to state, that on Saturday, the Steam-boat William Penn was entirely destroyed by fire. The following are the particulars: On Saturday, the William Penn left this for South Amboy, about eleven o'clock, having on board about thirty-two passengers, principally for Philadelphia. At near one o'clock, one of the passengers, who was warming his feet at the large smoke pipe, discovered the boat to be on fire, directly under his feet, having

communicated from the pipe to the deck. The alarm of fire being given, the greatest scene of confusion ensued; and being unable to extinguish the fire, which soon became very rapid, it was found necessary to run the boat on shore, to save the lives of the passengers and crew. Accordingly, she was run on the bar, near Princess Bay, about a quarter of a mile from the landing. The passengers, men, women and children, jumped into the water and mud, which they reached in a most disagreeable situation. Most of the baggage was saved. The boat was owned in stock shares, and was under no insurance. She burnt to the waters edge.

N. B. Since the above was in type, we have been informed that the William Penn, had been scuttled, and afterwards raised, and had reached Elizabethtown, but not as much injured as was first supposed.—Advocate.

The Electoral College of Vermont has given an unanimous vote for Monroe and Tompkins, as President and Vice President of the United States.

The votes of the Electors of Kentucky were unanimous in favour of James Monroe for President of the United States, and Daniel D. Tompkins for Vice President.

Extract of a letter from an American merchant of the first respectability in London, to his friend in Virginia, dated

LONDON, Oct 15, 1820.

"You speak of increasing your crop of Tobacco to more than double in future. Others throughout the southern states, will, no doubt, aim at the same thing, and the consequence will be to reduce prices down almost to nothing. If your exports of this article could be reduced to 60,000 hhds per annum, that quantity would nett more money to the shipper than double the quantity would render them; but I am aware of the impossibility of any limitation of the kind. As to the political state of this country, I think you are wrong in your conclusions. The national debt is certainly extravagantly great, but the finances are well managed, and there is not so much corruption allowed to pass with impunity, as there has been in younger countries. Fraudulent management of public concerns would be punished with great severity in this country, and the actors in such disgraceful conduct would be turned out of all society, and held in contempt by every one."—Nat. In presenting to the public another Lottery to provide funds for the completion of the WASHINGTON MONUMENT, the managers scarcely deem it necessary to appeal to the patriotism of their fellow citizens for their support and patronage, being well assured of the respect and veneration universally entertained for the illustrious name it bears, and of their ardent desire to see the noble monument, already so far advanced, finished. Were other motives for its encouragement to be sought, they would readily be found in the peculiar nature and novelty of the scheme, by which it will be perceived that the fate of the adventurer is to be determined IN ONE DAY, an advantage too obvious to require recommendation.
